### CMC on Site at Tech Columbus

Come with CMC on Site for a behind-the-scenes visit of TechColumbus, as CEO Ted Ford shows us the catalyst for technology-driven economic growth in Central Ohio.

With OSU — a top-10 research university, Battelle, Columbus Children's Research Institute, OhioHealth, 15 Fortune 1,000 companies, thousands of small and large tech-based and tech-enabled companies, and a large, growing young professional community, TechColumbus works to create new companies, strengthen existing businesses, open doors to technology resources. They help promote and attract the next generation of high-wage/high-growth industry sectors, support the attraction and retention of talented people, and promote opportunity for all citizens.

Within a decade, Central Ohio will be widely recognized as one of the premier technology-enriched communities in the world and a leader in tech-related business formation, expansion, and attraction. TechColumbus is leading our community into this new status by incubating dozens of embryonic and start up tech companies that will become the technology giants in the years to come.

Hosted by Ted Ford, CEO, Tech Columbus

WEDNESDAY, JUNE 24

### The GOP Perspective

CMC is giving Ohio Republican Party Chair Kevin DeWine the stage for his response to Ohio Democratic Party Chair Chris Redfern who blasted the Republican leadership and boasted of Democratic achievements, both statewide and nationally.

What strategies and goals are being embraced by leaders of the Republican Party to regain their status? What will it take to rebuild, regroup and reclaim

legislative and executive clout lost through the past eight years of the Grand Old Party's unpopular leadership? What issues — the economy, jobless rates, energy, health care, education reform, national security — will carry the GOP flag to success at the ballot box in years to come?

DeWine shares a GOP perspective on the current budget process, education plan and more at CMC on June 24.

Kevin DeWine, Chair, Ohio Republican Party
